

DATASHEET

Audit Management

AssurX Audit Management software allows users to select and define their audit processes based on the type of audit being performed. Identify and manage issues and gain insights into the health of your quality and compliance and pinpoint areas that need improvement. Track and trend quality events to gain insight into your state of quality.

Versatile, Controlled Auditing

Manage any type of audit activities, data, and processes – from quality to EHS and compliance – while significantly reducing the time and effort involved to support being audit-ready.

Intuitive, Closed-Loop Remote Auditing

Collect and share information from multiple sources with closed-loop processes to record findings, create recommendations and implement action plans.

Enterprise System Integration

Integrate with enterprise applications including ERP, MES, PLM, data repositories and others using AssurX's robust, flexible open interface solutions. Facilitate remote collaboration for input from other functional business areas, including external supply chain providers.

Reduce Risk Through Automation

AssurX connects all stages of the audit process to ensure observations and issues are handled according to risk. Real-time insight into metrics and trends helps you ascertain and manage risk in accordance with corporate and regulatory compliance (FDA, ISO, GXP, NERC, EU, and more).

Increase Audit Efficiency And Integrity

The system serves as a single, secure repository to document and easily retrieve audit plan information. Automated task assignments, email notifications and escalations minimize cycle time.

Reduce The Cost Of Compliance

Standardize audits to align with global regulations. Improve visibility through an audit trail of all plans, schedules, activities, findings, responses and final reports and enable leadership teams to easily examine audit scores for non-conformities.

Audit Management Functionality At-A-Glance:

- Reduce process risks by automating routing for late tasks, escalations, reminders and electronic closure signatures.
- · View and conduct all audit-related tasks from one dashboard.
- · Generate print-ready audit reports with full audit details.
- Documents, photos and videos can be attached at any stage to provide objective and supporting evidence.
- Download formatted spreadsheets to conduct off-line remote audits; import the data into AssurX without re-keying.
- Mobile ready for a real-time view of your audit records.
- Integrate with additional quality solutions to ensure closed-loop investigations and CAPAs.

About AssurX

With decades of expertise built into our quality management and regulatory compliance software platform, AssurX helps companies maintain quality and compliance, streamline workflows, control risk and better manage any enterprise. Our incredibly configurable software and deep understanding of users' needs produces a unique system that easily adapts as your business evolves. AssurX is an ideal partner for regulated companies looking for better operational control and efficiency while staying compliant.
