ASSURX CLOUD QMS

Manage your business. Not your software.™

AssurX Cloud QMS software-as-a-service (SaaS) delivers all the functionality and features of AssurX's comprehensive quality and compliance management solutions in a world-class cloud environment. AssurX Cloud QMS means rapid deployment, lower costs, and ease of administration. Delivered through our private dedicated cloud, your quality management system can be up in running in a fraction of the time of on-premise solutions.

AssurX

ASSURX CLOUD QMS

AssurX Cloud QMS dedicated software hosting service (SaaS) provides the development, maintenance and upgrades of AssurX quality management software in the cloud, relieving administrative burdens and enabling our customers to focus on their core competencies.

AssurX Cloud QMS software resides in a privately hosted cloud environment—available as a shared application with strong access controls, or as a dedicated private environment based on compliance and governance needs.

AssurX Cloud QMS delivers rapid set up and configuration that are ready for use in significantly less time with instant, secure access.

BENEFITS OF ASSURX CLOUD QMS:

+ Rapid Deployment—Quality management applications can be fully configured and available within days to weeks based on the level of configuration required versus the deployment of traditional client⁄server systems.

+ Fully Managed Service—Our managed services include remote administration and monitoring, updates, security patches and other critical support functions. Reduce or eliminate the need for IT administration.

+ Global Access—Extend the workplace beyond the plant and office. Work anytime, anywhere on any web-enabled device.

+ Lower Costs—AssurX Cloud QMS is available for an annual pay-as-you-go fee, eliminating the up-front cost of purchasing software and licensing.

KEY FEATURES AND FUNCTIONALITY

IMPORT YOUR OWN DATA

Import any delimited files including lists, problem codes, vendor lists, customer lists, and product lists. Import any type of data from spreadsheets, Microsoft Access®, SQL Server®, Oracle® or other enterprise applications right into AssurX Cloud QMS .

REAL-TIME UPGRADES

Upgrades and new features are automatically available to users as soon as they are released. No installation is required. AssurX application upgrades and new features are updated several times a year.

INTEGRATE WITH ANY OTHER SYSTEM⁄PROCESS

AssurX Cloud QMS allows to you to improve efficiencies and expand your quality supply chain by integrating with local and enterprise systems and databases. Inherent data ports and import/export capabilities enable records to be exhanged between the systems.

Data from your local systems and databases can be used and viewed directly from AssurX Cloud QMS. Connect to parts, supplier or customer lists. Drill-down capabilities provide access to internal records and data.

PORTABILITY

Should your business requirements change, you have the option to move the system in-house (on-premise) at any time. AssurX Support will help make the transition smooth and efficient.

Alternatively, if you have an on premise quality management solution, you can virtually airlift your processes to AssurX Cloud QMS.

ASSURX CLOUD QMS SOLUTIONS PROVIDE:

+ Reduced Operational Costs

+ Faster Time to Deployment

+ Managed System Administration

+ Universal Access

+ Robust Performance

+ Enterprise Grade Security

+ Executive Dashboards

+ Metrics & KPIs

+ Real-time Managed Upgrades

+ Integrated Communications with Key Suppliers and Customers

+ Flexible Software Delivery

SECURITY WITHOUT COMPROMISE

AssurX Cloud QMS is delivered through managed firewalls in a Safe Harbor and SSAE 18 certified data center via Secure Sockets Layer (SSL).

AssurX engineers continually monitor the network perimeter and keep current on industry best practices, updating security policies and software as necessary to safeguard against malicious attacks from hackers and unauthorized users.

Unlike other cloud providers, AssurX hardware and bandwidth resources are used only by AssurX customers, and your environment is managed solely by AssurX personnel and it's authorized data center agent.

AssurX provides a dedicated private database for each customer to house their specific data and configurations. Your data and configured systems are completely secure, confidential and available only to you and authorized AssurX technical support personnel (on an as-needed basis to provide technical services).

AssurX maintains rigorous controls and standards in compliance with the Health Insurance Portability & Accountability Act (HIPAA) to protect and secure electronic protected health information (ePHI) and individually identifiable information.

FEATURES AND FUNCTIONALITY IN ALL ASSURX SOLUTIONS

AssurX Cloud QMS delivers the same powerful functionality found in all AssurX on-premise software solutions with features that are designed for performance, ease of configurability and user friendliness.

+ Built-in, user-configurable dashboards, reports and metrics. No additional third party tools are required.

+ Effective detailed analysis, trending and management tools.

+ Ready to use forms and best practice workflows you can easily modify. Alternatively, build your own workflows using simple configuration tools that require no programming.

+ Point-and-click configuration for form design, workflows, approvals, escalation rules and alerts. Eliminate the need for revalidation as the system is enhanced.

+ Advanced full text search & query tools, including the unique ability to query all fields as named and configured across all forms.

+ Fully configurable point-and-click graphical user interface (GUI). The interface can be modified to incorporate your own branding.

TRAINING

AssurX offers multiple training formats including on-line learning, personal consulting, and on-site training courses that can be customized to your preference.

VALIDATION

Validation services a include process qualification templates for each pre-built application. Each qualification template is cross-referenced to the process requirements and provided in electronic format.

ABOUT ASSURX
